

“Research Assistant” wanted

We are happy to announce that the Bangladesh stroke registry committee intends to appoint research assistants for its research sites (one for each center) in Dhaka Medical College, Bangabandhu Shaikh Mujib Medical University, and the National Institute of Neurosciences and Hospital. The committee invite applications from medical graduates (MBBBS and above) of Bangladeshi citizens. The applicants must have a keen interest in medical research. They must commit themselves to stroke research activities if appointed and should not engage themselves in another job during their tenure in the stroke registry research. They will need to should work for 12 hours and all seven days. One should apply with their BMDC registration and MBBS certificates by **25.09.21** to the stroke registry committee in the National Institute of Neurosciences and Hospital. An oral interview will be held for the recruitment. The salary will be negotiable. The appointment will enact from 01.10.2021.
