

DR.SIFAT SHAMS

MBBS, MD (Pathology)
Medical Officer
Department of Neuropathology
National Institute of Neurosciences & Hospital

EDUCATION AND WORK EXPERIENCES

Dr Sifat Shams completed her MBBS from Mymensingh Medical College in 2012 and later she accomplished MD in pathology from Bangabandhu Sheikh Mujib Medical University, Dhaka, Bangladesh. She did her MD training from Sir Salimullah Medical College, Dhaka, Bangladesh. During her MD course, she had conducted research on "Immunohistochemical Expression of Estrogen (ER) and Progesterone (PR) in Malignant Epithelial Ovarian Tumor and Correlation with Its Grading". As a co-author, she also had another three publications, one on the topic of gastric carcinoma and another two on cervical carcinoma. Now she is working as a medical officer in the Department of Neuropathology at National Institute of Neurosciences and Hospital, Sher-E-Bangla Nagar, Dhaka. During her working period, she also did two case reports on "Cauda equina neuroendocrine tumor" and "Lafora disease". She is also associated with a few research projects of neurosurgery department. She has lot of interest in Neuropathology and molecular techniques. Besides her regular works, she is also taking part to run Fluorescence In situ Hybridization (FISH) in the Department of Neuropathology at National Institute of Neurosciences and Hospital.
