Dr. Muhammad Shamsul Arefin is a Neuro-Anesthesiologist & Interventional Pain Medicine Specialist). He is serving as an Assistant Professor in Neuro Anesthesia dept. & **In Charge** of Pain Medicine department in National Institute of Neuro Sciences & Hospital (NINS), Dhaka.

He completed his graduation in 2003 from Chittagong Medical College and Diploma in Anesthesiology in 2009 from Bangabandhu Sheikh Mujib Medical University (BSMMU, Ex-PG Hospital, now Bangladesh Medical University-BMU). Then he started his journey as a resident and completed

5-year MD degree in Anesthesiology in 2017 from BSMMU. During his academic course he had special interest in interventional pain medicine and attended different National and international training courses regarding interventional pain-relieving procedures. He completed his thesis work on pain medicine topics under his mentor Prof. AKM Akhtaruzzaman, one of the pain medicines pioneers in Bangladesh. Besides, he had opportunities to work with some of the premium medical facilities from abroad and achieved fellowship in pain medicine from India & USA.

He has also achieved **"Young Pain Physician Award 2020"** in 1st International Conference on Pain 2020, organized by Bangladesh Society of Anesthesiologist, Critical Care & Pain Physician (BSA-CCPP).

He has extensive experience with all Interventional Pain Management techniques and is well-trained in diagnostic and therapeutic selective nerve root, facet joints injections, epidural injections, intradiscal procedures- Ozone therapy & intra articular injections- PRP therapy.

He is enriched with more than 40 national & international research publications in the field of Pain Medicine and Anesthesiology. Now he has enrolled as a PhD researcher under Jahangir Nagar University (JU) in Pain Medicine.

He is the Member Secretary of Bangladesh Society of Anaesthesiologist, Critical Care & Pain Physicians (BSA-CCPP) & President of Bangladesh Society of Interventional Pain Medicine (BSIPM).

He is the Founder & Director of Ava Pain & Intervention Center (APIC) which is designed to be an effective pain relief destination to patients suffering from acute and chronic pain. From this center they already have served more than thousand patients by this time in Bangladesh
